

The background of the cover features concentric, light blue and white ripples on a water surface, creating a sense of movement and depth. In the lower half, a large, vibrant green leaf with detailed vein patterns is shown, partially overlapping the ripples. The overall color palette is soft and natural, dominated by blues and greens.

---

### **PART 1**

Our Father in Heaven, it's a joy to come to you on the Sabbath. We want to open our hearts to receive the double portion of your Spirit. We want to sanctify this day in our minds that we be not distracted and that your angels will be around us and we will be listening to your voice. You're still small voice speaking to us. And I pray as we enter into this presentation now that you would give us discernment, give us understanding to understand and help us as we share together. And I thank you in Jesus' name. Amen.

So we'll see how far we get, obviously we've got the notes. I just want to read some passages of scripture, and again, I have found many times by using Miller's rules of interpretation that is to take the literal first, unless it does violence to the laws of nature that some amazing things turn up in scripture that have been hidden from us because of our culture, because of our environment. And I want to start with Psalms 33. For those of you online, if you go to [maranathamedia.com](http://maranathamedia.com), you'll see two new presentations that were loaded today. One is mine and the other is Colin's. The one that I'm doing is called By the Word of the Lord. So you can find those on the website and hopefully everyone here has got a copy. So Psalms 33:6-8 and we want to read this carefully, it says:

By the word of the Lord were the heavens made; and all the host of them by the breath (or ruach) of his mouth. He gathereth the waters of the sea together as an heap: he layeth up the depth in

storehouses. Let all the earth fear the Lord: let all the inhabitants of the world stand in awe of him.

So it says “by the word of the Lord were the heavens made”. Now it gives you how this happened. For he what? He spake and it was done. He commanded and it stood fast, which means when God spoke this whole world, this whole universe came to be by the word of God. This is a very important principle.

And so we now look at Hebrews 11:3 talking to the same subject.

Through faith we understand that the worlds were framed by the word of God,

That word “framed” means formed, fitly joined together, assembled, perfectly assembled by the **word** of God. And then it says,

so that things which are seen were not made by things which do appear.

Now this statement poses a tremendous problem for the philosophy of science today and I say philosophy of science because it the philosophy of science is that if I don't see it, it don't exist. Matter cannot be created or destroyed. This is the principle of science, but the word of God says everything that we see was created by things which do not appear that are outside of matter. And that statement there in scripture means that the whole basis of modern science is corrupt because everything we see was made by things we do not see.

Now notice what it says in Psalms 19:1-4. We want to listen to this as God spake and the word of God went out. It says,

The heavens declare the glory of God; and in the firmament.

What is the firmament? On the second day of creation, there is a separation in the waters and the air space between that separation is the firmament.

the firmament sheweth his handiwork. Day unto day uttereth speech, and night unto night sheweth knowledge.

What speech is happening day unto day? Day unto day uttereth speech. Whose speech declaring the glory of God? God's speech. It says,

There is no speech nor language, where their voice (or sound) is not heard. Their line is gone out through all the earth, and their words to the end of the world. In them hath he set a tabernacle for the sun,

Now in my scientific upbringing, most of these statements I understood metaphorically. They are poetry, its symbolism, because the sound that goes out and this voice that goes to the end of the earth, in the materialistic understanding of science, well, that's just poetry. But notice what E.J. Waggoner says in the next quote,

**The Word which brought forth the trees of Eden, and developed them into perfect beauty, has never ceased to sound through the earth,** and there is no speech nor language where this voice is not heard.

It quotes what we have just read in Psalms.

**Every sprouting seed and swelling bud is a vibration;**

That's an interesting statement, isn't it. We wanted to dig more into this. What does it say? Every sprouting seed and swelling bud is a vibration because from the word of God and sound waves, vibrational waves by which God spoke things into existence is vibration, is speaking from the word of God. Light, sound, colour, music. It's all waves. And we'll look at some more verses on this.

**every leaf a whisper; every blossom an echo; and every seed-pod a prophecy as well as a fulfilment of the Almighty Word** which in the beginning clothed the earth with verdure, and filled it with life. {February 26, 1903 EJW, PTUK 129.5}

And now we have a statement from Ellen White in *Christian Education*, page 195:

The Levites, in their hymn recorded by Nehemiah, sung, "Thou, even thou, art Lord alone; thou hast made heaven, the heaven of heavens, with all their host, the earth, and all things therein, . . . **and thou preservest them all.**" [Nehemiah 9:6.]

So not only does the word speak them into existence, the word holds them together. In Him, Christ, all things hold, consist or hold together (Col 1:17).

As regards this world, God's work of creation is completed. For "the works were finished from the foundation of the world." [Hebrews 4:3.] **But his energy is still exerted in upholding the objects of his creation.**

So the word of God that has gone forth, that word is still upholding all of the creation. It's not self-perpetuating as many of us have been taught. It is not a self-originating system. It is God that upholds the earth, upholds the creation, moment by moment that God does this and we will see more of this as we go along. It says,

**It is not because the mechanism that has once been set in motion continues to act by its own inherent energy, that the pulse beats, and breath follows breath; but every breath, every pulsation of the heart is an evidence of the all-pervading care of Him in whom "we live, and move, and have our being."** [Acts 17:28.]

The cells of our body, the organs of our body, the operations of our body are held together by the word of God. Is that right? It's God's word that holds these atoms together in the form that they are held. It is not by some inherent wind up clock system. This is not some kind of latent deism that we are talking about, that the most people in the world believes in. It is God himself that holds us together in him, in Christ, all things hold together, all things consist, and this is an important principle that we need to understand.

He "maketh grass to grow upon the mountains," and by him the valleys are made fruitful. All the beasts of the field seek their meat from God, [Psalm 147:8; 104:20, 21.] and every living creature, from the smallest insect up to man, is **daily** dependent upon his providential care. In the beautiful words of the psalmist, "These wait all upon thee . . . That thou givest them they gather; thou openest thine hand, they are filled with good." [Psalm 104:27, 28.] **His word controls the elements, he covers the heavens with clouds, and prepares rain for the earth.** CE 195,196

All of these things are by the word of God. They are not things that have been set in motion and left to do whatever they will do. This is the point we need to continually look upon. So when scientists are looking at the things of Earth and creation and looking only at the things that they can see, they cannot discern the truth of our creation because it's being held together by the word of God.

And notice what it says in Genesis 1:2 in the Young Literal Translation, we have this down below. It says:

The earth hath existed waste and void, and darkness is on the face of the deep, and the Spirit of God **fluttering** [H7363] on the face of the waters,

Fluttering, it's an interesting term. King James, hovering over or fluttering. There is a fluttering or a vibration that is taking place upon the surface of the water. Interesting, isn't it, on the face of the water?

I don't know how many of you have studied the principle of water memory, the ability for water to be affected by other organisms or elements around it to put its signature into the water. You look it up and study water memory. The scientific world doesn't acknowledge this at all. It's called pseudo-science. But some scientists who now are deemed pseudo-scientists by the scientific community, they've proved this, that the effect of living organisms and their ability to create structures in the water. It's very interesting, very interesting.

So we read that text before Colossians 1:17 And he is before all things, and by him all things consist. [Hold Together (NIV)]

Now, I have a little book here, *The Gospel in Creation*, this is put together by Destiny Press up in Palm Woods and E.J. Waggoner is speaking about in the beginning of this book, *The Gospel in Creation*, he talks about the creative word. This principle of the creative word, God's word, bringing things into existence and upholding it and sustaining it is a big theme of the 1888 message in terms of the word of God. And in here he has a picture very early on, there's a picture in the book and this it says voice pictures. It has little pictures. Well, I'll read it to you and I'll explain about these voice pictures. And it says here quoting, this is Waggoner quoting out of *Gospel in Creation*:

"By the word of the Lord were the heavens made; and all the host of them by the breath of His mouth." In the Century Magazine of May, 1891, there was a very interesting description of the production of voice-figures. The article was entitled "Visible Sound." Mrs Watts Hughes had employed a simple device to test the intensities of vocal sounds. It was an elastic membrane stretched over the mouth of a receiver, into which receiver the voice was introduced by means of a wide-mouthed tube. On this membrane sand or a fine powder was sprinkled. It was found that upon singing into the tube the powder was gently agitated by the vibrations of the membrane, which vibrations corresponded to those of the voice, differing according to the pitch and intensity of the sound. This, of course, is what might be expected. But the wonder was that in every instance the agitation produced the shape of some plant or flower, or even of some of the lower forms of animal life.

There it is there. You can look this up on YouTube if you type in the word "cymatics". You will see that this is this principle of taking a plate, putting sand upon it and then vibrating that plate with certain voice sounds or musical sounds and to see the shapes that begin to appear. The patterns are beautiful. The beautiful structures that come out of sound. I mean, it's quite amazing. And as we see here in the book, you'll see little, little structures of trees and flowers. And Waggoner wrote about this back in 1893, when he

did *Gospel in Creation*, and this was written in 1891. And this is interesting. It says:

This, of course, is what might be expected. But the wonder was that in every instance the agitation produced the shape of some plant or flower, or even of some of the lower forms of animal life. Something similar to this may be seen when one breathes upon the window pane in frosty weather. ... This shows that the breath, as it comes from the lungs has the shape of living things, and the singer suggests a thought which she thus expresses:

So in your breath when you sing and speak, there is the ability to create these forms. It's interesting, isn't it? The impact of the frequencies that are coming out of us and its impact on the creation around us and the shapes that are being formed. Very, very interesting.

Closing now my brief sketch of these voice-figures, as I have observed them, I would add that my experiments have been made as a vocalist, using my own voice as the instrument of investigation; and I must leave it for others more acquainted with natural science to adjust the accordance of the these appearances with facts and laws already known. Yet, passing from one stage to another of these inquiries, question after question has presented itself to me, until I have continually felt myself standing before mystery, in great part hidden, although some glimpses seem revealed.

And this is true. It has been hidden. The study of these things have been, I would say to you, intentionally hidden from the human race. Intentionally hidden that we would not understand these principles or perverted through the principles of Eastern mysticism or New Age philosophy and esoteric understanding. And there is a polarization between the eastern mind and the western mind and in this polarization, neither side can obtain or come to a knowledge of the truth as a result of this. And so we see here,

And I must say, besides, that as day by day I have gone on singing into shape these peculiar forms, and, stepping out of doors, have seen their parallels living in the flowers, ferns, and trees around me;

and, again, as I have watched the little heaps in the formation of the floral figures gather themselves up, and then shoot out their petals, just as a flower springs from the swollen bud - the hope has come to me that these **humble experiments may afford some suggestions in regard to Nature's production of her own beautiful forms, and may thereby aid, in some slight degree, the revelation of yet another link in the great chain of the organized universe that, we are told in Holy Writ, took its shape at the voice of God.**" {1893 EJW, Gospel in Creation 23.3}

Now, one thing that's very important when we step into this kind of an understanding is that without an understanding of the divine pattern, that God is the source of all things and we are the recipients of that by grace, by faith alone. If you don't have that clearly understood in your mind and you have access to this kind of information, you are in great danger of stepping straight into pantheism. And this was the difficulty that Waggoner started to run into and AT Jones. When we begin to look at this subject in regard to the universe, in regard to vibration and frequency, and if you look in the New Age or eastern religion, the thought is expressed that I, as a being simply need to learn how to vibrate at a higher frequency so that I might become God. There was a lack of understanding of the divine pattern that all things come from our Father in heaven, and He is the source of all good things and we are the recipients of His grace and His love and His mercy.

And the second point is that we are evil, that we are wicked, that we are selfish and that we are in desperate need of redemption through His grace. And with those in that context, the study of these things can, I believe, find true meaning. Outside of that context, you will be led into a deception in the study of these things. And this is where we see that Waggoner started to run into trouble, and he began to write in 1901/1902 about the fact that in regard to the sanctuary, he no longer was entertaining ideas that there was a literal sanctuary, that God's presence is everywhere and he started to move into that direction, the loss of the divine pattern principle of source and channel, and I've written about that in the book *Lessons from History on Church Organization*.

Very important, very important for me as a guide, as we begin to look into these subjects and look at these things as to what was it that undid E.J. Waggoner because of so many beautiful things that he was shown and that he wrote that is such a blessing to us. I needed to ascertain in my own mind what was the key issue that led him down and it was his theology of church organization that ultimately destroyed him. That's a big statement. His theology of church organization is what ultimately destroyed him and led him down a path. There was no divine pattern principle in church organization in his mind. The church, he said, was patterned on the individual and where the individual is, there God is. There was no divine pattern. And from that principle, he marched straight out of Adventism, and at his time of his death, there was nothing within Adventism left. It was all gone and that's a tragedy. It's a tremendous tragedy. And so when we look at these things, we keep the framework in mind and I'm stating this at the outset that looking at this subject, I want to enter into this with the correct framework, with the correct understanding to be moored and anchored so that we don't go into an incorrect direction.

Now, notice I put the word “cymatics” there for you to go and study and look at this. I think you will find it incredibly interesting to study cymatics. And now a statement from Nikola Tesla. And I think once Einstein was asked something about who is the smartest man in the world, and he said, I wouldn't know, you'll have to ask Nikola Tesla. So this is what Nikola Tesla said.

“If you want to find the secrets of the universe, think in terms of **energy, frequency and vibration.**” “The scientists of today think deeply instead of clearly. One must be sane to think clearly, but one can think deeply and be quite insane.” Nikola Tesla

What do you think he was saying there? The scientists are insane because they don't think clearly. They don't think in terms of energy, frequency and vibration. They think in terms of those things which appear.

And so I've made that statement there about the polarization about east and west. The West thinks in terms of logic, empirical data, material, existential. The eastern mind tends to think in terms of esoteric, spiritual and

experiential. This tends to be the polarization between the two sides. And we made the point, and Craig mentioned this earlier and I'm quoting from the website:

Sound and light are similar in that both are forms of energy that travel in waves. They both have properties of wavelength, frequency and amplitude. ... Sound can only travel through a medium (substance) while light can travel through empty space. Light, sound, colour all operate in frequency or vibration. {<https://brainly.in/question/16871106>}

This is just introducing the idea of sound or vibrational form. So we look at the colours of the rainbow. The colour red at the top of the rainbow has a certain frequency, and our eyes are frequency decoders. They decode frequency of colour to be able to pick up the colour. And I was listening to a presentation recently, and this is coming probably from the esoteric side of things that in certain feudal kingdoms, the king would not allow his peasants to wear the colour purple. Why? Because not only would it signify that they thought that they were royalty, but that in wearing the colour purple, they could pick up vibrational forces that could cause them to think in a royal manner. You see the point. So they were not allowed to wear the colour purple.

Now we know from our study of scripture that the colour blue represents what? Obedience. So the colour blue is the colour of submission. It is a submissive colour, and as I was listening to one person present on this subject, he said, the colour blue is feminine and I thought, hang on a minute. It's masculine. But then I said, Oh, from a biblical point of view, it's it is the principle of submission. And so it is a feminine principle. And red is a colour of dominance. This is what they were saying.

I thought, isn't that interesting when you mix the colour red of headship and you mix it with the colour blue with submission, what do you get? You get purple. Frequency. It's interesting, isn't it? And this particular person was also saying in his understanding that the colour green carried a sense of sadness. And I thought, you know, from a biblical point of view, I thought green was the colour of hope or faith and hope. And then I thought of the

text as just for the whole creation, groans and travails. Why is the creation groaning and travailing in hope? Because it is having a present difficulty. Is it possible that the creation around us is reflecting a frequency of its sadness in hope of what is yet to come, and that our eyes are decoding those frequencies in the colour green? It's interesting that Ellen White says that in her vision in *Early Writings*, she talks about living green. What's the difference between living green and the green on this Earth? It's just a thought that I had in my mind.

So these are some of the thoughts that I began to think about. That colour has frequency and your eyes are able to decode that frequency and those frequencies have an effect on you. This is just something, of course, the esoteric world take this all off into ridiculous directions and all kinds of silly things with it. But it's a fact, these things are facts that they have frequency and your eyes are decoding them and picking them up. Different frequencies.

As well as the fact that we are slowly being enveloped in a network grid of frequencies. Different frequencies. Frequencies that are at war with our bodies and I want to study a little bit more about this in terms of Satan's agenda and the prince of the power of the air. Let's have a bit of a look at this subject.

Now come over on the page 3 of the Notes, this is where it starts to get very interesting. I thought, well, what I'm going to do is I'm going to look up the word "vibration" in the *Spirit of Prophecy*. Just what does the *Spirit of Prophecy* say about vibration? And I did some of this study, and two weeks ago I presented this to Eddie and Craig Jones, just wanted to sort of sound them out a bit. I like to sort of sound things out a bit about these things that if they say no Adrian, that's totally weird. Drop it. They said, this is amazing. So OK, I've got permission now to share with you all. So let me read you some quotes and listen very carefully to this next statement.

### The Holy Spirit

The striking feature of divine operations is the accomplishment of the greatest work that can be done in our world, by very simple means. It

is God's plan that every part of his government shall depend on every other part, the whole as a wheel within a wheel, working with entire harmony.

Now this is the part I want you to think about.

**He moves upon human forces, causing his Spirit to touch invisible chords, and the vibration rings to the extremity of the universe.**  
{SpTA10 36.3}

Now I find that extremely interesting. God moves upon human forces, His Spirit touches invisible cords in a spiritual realm, in a spiritual understanding, spiritual chords and the vibration rings to the extremity of the universe. I find that fascinating. I find that very, very interesting.

Now the next quote you've heard. You've heard this before, but this is the context of this quote in *Special Testimonies*. It says,

**The prince of the power of evil can only be held in check by the power of God in the third person of the Godhead, the Holy Spirit.**  
{SpTA10 37.1}

That's really interesting in terms of how this war is being conducted in terms of the Holy Spirit moving upon. And the distinction we need to make is that the New Age would say that the Holy Spirit is vibration. No, that's not what this says. The Holy Spirit causes vibration.

This is a really important difference that we understand so that the Holy Spirit is not restricted to vibration, but the Holy Spirit causes vibration and causes it to touch. His Spirit touches invisible chords, and the vibration goes to the extremity of the universe. This is really important for us to understand so the Holy Spirit is engaged in the activity of causing vibration. That's the point that we want to pick up here. And that it is only through the Holy Spirit and the invisible chords that the Holy Spirit touches, that you will have any hope of defeating the prince of the power of evil. This is really, really important stuff that we're talking about here.

Now notice what it says in John 10:27, "My sheep hear my voice", which is sound, the waveform. My sheep hear my waveform. OK. "And I know them, and they follow me." They are in tune with my voice. They are in tune with the sounds that I am giving to them.

And now I want to read this statement because I found it one of the most helpful in terms of understanding the Holy Spirit as much as we can. Knowing that silence is golden, we cannot define exactly what the Holy Spirit is. It's not possible to do this. And that's why I don't believe in Fundamental Number Five, which is seeking to define exactly what the Holy Spirit is. I can't do that. But here it gives you a clue.

**The Holy Spirit is a free, working, independent agency. The God of heaven uses His Spirit as it pleases Him;**

That's an interesting statement, isn't it? It's an agency which the Father uses as it pleases Him.

and human minds, human judgment, and human methods can no more set boundaries to its working,

We cannot set a boundary to the working of the Holy Spirit. We can touch on points of the work of the Holy Spirit, but we dare not restrict it to any one thought process that we might have.

or prescribe the channel through which it shall operate, than they can say to the wind, "I bid you to blow in a certain direction, and to conduct yourself in such and such a manner." {FLB 52.4}

Now notice this statement in *Five Testimonies*, 267. Because remember, if you want to understand the secrets of the universe and of course, we're talking about Nikola Tesla, and I'm not saying that he has the answers to life, but it's interesting. He did introduce many interesting things. If Tesla's theory had been freely available to all of us, we all would have been able to have access to free energy. But the powers that be have ensured that that's not going to happen, and they will kill and destroy anyone who would do this

so that they can control the world. Because if you have free energy, you cannot control the population. But this is what it says.

**Pray that the mighty energies of the Holy Spirit**, with all their quickening, recuperative, and transforming power, **may fall like an electric shock on the palsy-stricken soul**, causing every nerve to thrill with new life, restoring the whole man from his dead, earthly, sensual state to spiritual soundness. {5T 267.2}

That's an amazing statement, and I would suggest to you in the pattern of the divine pattern that these spiritual, invisible realities are manifested in visible physical realities, that the invisible and the visible are matching one another as the energies of the Holy Spirit fall upon you. They have the ability to, through vibration, make changes in the human body and in the human mind, and not in that order. The human mind, it can make changes in the human mind, which then affects the person spiritually and then also make effects on the human body like an electric shock. The mighty energies of the Holy Spirit. And again, we do not restrict the working of the Holy Spirit to just this aspect. This is just one aspect of the Holy Spirit, which we cannot quantify, but I find that very, very interesting.

So we are connecting that there is an aspect to the work of the Spirit in which there is an element of energy related to electricity, related to vibration, related to frequency. That the Holy Spirit has this capacity to manifest these things and to affect the human organism. That's very, very clear in the things that we have read. In contrast, notice what it says in the next statement.

Evil Spirit - Prince of the Power of the Air

This last temptation was the most alluring of the three. [This is Christ's Temptation.] Satan knew that Christ life must be one of sorrow, hardship and conflict. And he thought he could take advantage of this fact to bribe Christ to yield his integrity. Satan brought all his strength to bear upon this last temptation; for this last effort was to decide his destiny as to who should be victor. **He claimed the world as his dominion and that he was the prince of the power of the air.** *Confrontation* Page 52

This is a claim that Satan made, that he was prince of the power of the air. And that's a very interesting statement, isn't it? Now, of course, this is quoting from Ephesians 2: 2:

Wherein in time past you walked according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience.

And so the enemy has a capacity to affect the human organism also through the power of the air, through the invisible. Through the principalities, powers and these things and I believe that these devices are part of his prince of the power of the air process to affect the human organism in a way to make it difficult for us to communicate with God. And of course, it starts with low frequency. It starts with 2G then 3G, 4G, 5G and then you are amping up these frequencies that make it harder and harder for God's people. But the good news is, if you are anchored in and you are connected to the Holy Spirit of God, the mighty energies of the Holy Spirit.

And you know the process of connecting to that through repentance, confession, through prayer and through obedience to the commandments of God, you will be able to withstand this assault on the human organism through the power of the Holy Spirit. Does that make sense? So this is the statement now that we'll just look at a little bit more. Look at a few more points. This is in Desire of Ages, 356. It says:

The Lord understands all this. Jesus assures His disciples of God's sympathy for them in their needs and weaknesses. **Not a sigh is breathed, not a pain felt, not a grief pierces the soul, but the throb vibrates to the Father's heart.** {DA 356.2}

Now that statement there, again in the past, I confess I would have understood as poetry, but in the things that we have looked at and considered this is literal. That when the human organism and we'll study later on, a man by the name of Manfred Clynes, an Austrian neuroscientist studied that the human emotion as waveform and compared it to music and how music can produce waveforms that approximate human emotion. And

this is, of course, again why music can be so manipulative of the human spirit. But it can also be a means of us magnifying what we are experiencing through the music that we listen to. You see, it's interesting that when Thomas Jefferson was writing out the articles in the United States for the Constitution and when he was trying to think he would stop, he would pick up his violin and he would begin to play to organize his mind so he could write more clearly. These men understood these things far more than what a lot of people do today.

So I want you to remember that point. "Not a sigh is breathed, not a pain is felt, not a grief pierces the soul, but the throb vibrates to the Father's heart." How much sorrow and woe and anguish and depression and discouragement is vibrating to the Father's heart right now? That thought is profound in terms of an understanding of its effect on our Father in heaven, that the emotions that we feel. Because all of the emotions that we have as Manfred Clynes has formulated that anger, bitterness, sorrow, grief all have waveform, as well as reverence, joy, sexuality. All of these things have waveform and they vibrate to the heart of God. So when we are in reverence to God, we are emitting a waveform that is in harmony with heaven. If we are referencing the true God. If we are referencing a false God and we have a waveform that is connected to deception and evil and this opens up to us a tremendous understanding the universe, doesn't it, when we look at these things.

So I want to read you this statement and I want to finish here, but I just want to before I read this to thank God for the pioneers of the Seventh-Day Adventist Church, to which we owe everything, that God gave to them, God gave to us through these men precious truth that we should not lose. And as we read this statement, you tell me whether this man didn't understand everything that we're talking about now. This is *Story of the Seer of Patmos*.

There was a time when sin did not exist; **when the harmony** [harmony is a waveform word, isn't it] **of perfection reigned supreme. Man broke the chord.**

He broke the chord, he came out of harmony, he moved into a different waveform and frequencies to what heaven was operating in.

Life began to ebb. All nature mourned. Slowly, one by one, the stately trees shed their leaves; the flowers faded.

Because man, in his breath, the waveforms that are coming out in his breath is the capacity to, you see little trees, you see things coming out and it's affecting all of the creation around him and it's diminishing them. Trees before the flood, Ellen White says, were like stone. Don't get many trees like that today, not even Iron Bark. It is strong but it's nowhere near as strong. That's why trees used to grow thousands of feet tall because they were like stone.

Interesting, it says even the flowers faded. And the reason? I'll just jump ahead a little bit here. The reason I started looking in this direction was when we studied the subject of the Dominion of the Earth. How is it that when Adam sinned that the trees begin to die. Why did they start to die? It wasn't God that was killing the trees, wasn't God that was killing the flowers. And why did Adam mourn more deeply when he saw leaves falling off trees than people now mourn for their dead today? Why? What does this mean? That's what led me to study these questions. Killing. Thou shalt kill. It's coming out of you. And just think about that in terms of it doesn't matter what comes out of your mouth and what you project to other people, you cannot hide the fact that you are emitting frequencies that are either destroying the Earth or are coming from God through you and restoring the Earth. That's an interesting statement, isn't it? Interesting thought process. We cannot restore the Earth because we are wretched, miserable, poor, blind and naked. But we can have rivers of living water flowing out of our heart, our belly and affecting everybody else. Now, the New Age has taken this concept and twisted it and turned it into something completely different. And Christianity and the modern scientists have gone that's all hocus pocus. That's all nonsense. It's all garbage. And many Adventists have tended to go in that direction, in that particular direction.

So notice what it says.

**Each blossom as it fell, sounded a death knell throughout the universe of God.**

What was this man understanding. Each blossom that fell sounded, there's that waveform again, a frequency as it hit the earth.

But Christ had already covenanted with the Father. His life was offered for this very time. And man,-penitent, sorrowful man,-brought a lamb from the flock, slew it; and its life-blood became a token of the life of Christ. Every creature, from the highest form of creation, down to the insect mote in the sunbeam, lives in the life of God;

"Lives in the life of God", I think he's quoting Ellen White there in the book *Education*, page 99.

**and when death occurs, a vibration is felt in the heart of the Eternal.**

It's amazing, isn't it? That's how the sparrow cannot fall without the Father knowing. This is how. It's vibration. The insect mote affects Him. Frequency and electricity. He knows.

In every lamb, slain in all the sacrificial offerings, God saw the blood of His own Son. **The heart of the Father was broken when the first lamb was slain;**

Now, that adds an interesting dimension. Do you think that Stephen Haskell understood the sacrificial system? Oh, God commanded the sacrificial system. But it broke His heart, didn't it, it broke His heart.

**and every time the knife was stained with the blood of an offering, it brought afresh to the mind of God the death of His Son.** Christ died of a broken heart. Heaven knows the meaning of a broken heart,-of a life spent,-of hopes blasted. **"A broken and a contrite heart, O God, thou wilt not despise."** {1905 Stephen Haskell, Story of the Seer of Patmos 104.2}

And so I just want to finish on this statement in Genesis 4:10, when God asked Cain and he said, what hast thou done? The voice or sound or frequency or vibration of your brother's blood cries or shrieks unto me from the ground? Now, you answer the question, is this poetry or is this reality? It's what I want you to think about. Let's close with a prayer.

Our Father in Heaven, I thank you that we can approach your throne. We pray for the gift of your Holy Spirit. We acknowledge that we are sinful, erring, weak and mortal. There is nothing good in us, but we know that you love us and that you do not condemn us, and that if we ask for the Holy Spirit that it can fall upon us. We need your spirit. We pray to be in harmony with heaven and that your angels would bring to us the Holy Spirit that we may receive. We may have our hearts touched and that this will vibrate to the extremities of the universe and that we may be in harmony with heaven, that we may withstand the prince of the power of the air. I pray that we would study these things to be Berean. This is the beginning of a new study sequence, and I pray that as we study this, that we would walk in the paths of truth, that you would guide us and protect us, and that we would only follow the way of truth. And I thank you in Jesus' name. Amen.

## PART 2

Father, we just thank you for this beautiful Sabbath day. We thank you for the opportunity to open the word of God. Your word is the fountain of life. Through your word comes life and health and strength. And we pray that as we read and as we study, that our hearts will thrill as we are reminded once again, you have already forgiven us. You only want us to accept that you have forgiven us, that we might be reconciled to you to know that you don't hold anything against us. You're not judging us. You're not condemning us, but that you're freely given to us, all things in your Son. And I pray as we continue to study together, that you would lead us and guide us in Jesus' name. Amen.

Yes, it was probably a little bit prophetic, but based on what I could see in the faces of those sitting, I thought man, this is going to be a rough ride for some of you. But the subject, I think, will keep many of you interested. And I just want to preface this by telling you a little story about one of my translators in Europe. And he said to me, you know Adrian, following you up these doctrinal cliffs is certainly an exciting enterprise. The only problem is this when I've caught up to the one cliff that you've climbed, I don't have time to breathe and you're already halfway up the next one. And I do apologize for that. My pastoral heart struggles with that a little bit. But in terms of the pace that we've been going, I know many of you are enjoying it. But the reason why I'm impressed to keep going at the pace we are is that only the true gospel will get you through the time of Jacob's trouble. Only the true gospel and we're still putting together the pieces of the true gospel.

And there's a lot of talk about the New World Order, and we've been hearing for decades and decades about the New World Order and the death camps and all that the Papacy and America are going to do and all the Sunday laws and all of the things that are going to come upon God's people. And after God's people are filled up with all the terrors of all these things that are about to come upon the Earth, what is the solution that is offered to you? Get ready. Does that make sense? I mean, what is that? What is that? Get ready. Well, what am I supposed to do? How do I prepare for the New World Order? How do I? How do I prepare? Or well you need to? You need

to know how to subsist yourself. You need to know how to use solar panels. You need to know how to do all these things. You need to go out and you need to get all this is to prepare for the New World Order. Right? But what's going to stop your heart from failing for fear of the things that are coming upon the Earth? That's what we're engaged in. Self-sufficiency so that we're not dependent. And I'm not saying these things in and of themselves are bad. I'm just saying that if that's how you get ready for the New World Order, you're not going to make it. You're not just going to make it.

Righteousness by faith. The Lord sent a most precious message through Elders Waggoner and Jones. This was the light that would lighten the Earth with its glory. And we must pursue this message because the drops of the latter rain began to fall in the preaching of this message and the things that we've been sharing, the things that Colin shared in the last presentation are all part of this message to prepare us for the time of Jacob's trouble and the thought that your Father in heaven does not judge you. Do you think that will help you with all of your sins are crashing down upon you around your ears and everything is going crazy and you are tempted to think this is happening to me because I'm evil and wicked and all of those things? Do you think it helps to know that your Father doesn't judge you? Would that help you to stop your heart from failing for fear?

Well, it's going to help me. It's going to help me. And that my Father does not condemn me and that my Father is not going to destroy me because I don't measure up and because I don't have it all together. And no, this is the message that we're engaged in, and we have been going at a fairly rapid rate of knots. But I think it's important because great changes are about to take place on the Earth. I think we all know this.

We know that this little bubble that we've been in for the last 30 years, particularly here in Australia, it's about to burst. It's about to go in a very different direction and things are going to change. And I want to, as it were, to ensure that there is food available for God's people so that when the famine really starts to set in, that we have food in store ready. And so that is why we are operating at a fairly fast rate of knots. I know that some people who are having difficulty within the church, they simply want another church where everything is going to be catered for, we can just continue our church

life and have everything the same as it was before. We're not in a position to do that at the present time. We're in a position to search the scriptures. Only those who have fortified their minds with the truths of the scriptures will go through the last great crisis, *Great Controversy* page 593, The Scriptures a Safeguard. Anyway, that's the chapter. And so that's the preface I want to lay down. Sometimes I wish that I could slow all this down, but so much exciting material comes to me and I can't. I've got friends that helped me. They keep sending me stuff. Ooh, that's really interesting.

So let's pick this up again. The material we looked at in my first presentation, I think some of you will pick up that this is the next stage of the revolution in thinking, in understanding and I believe it's important for us to understand these things. The secret things belong to God, but the things that are revealed for us and our children, Deuteronomy 29:29. And so when the *Spirit of Prophecy* speaks to us, when the Bible speaks to us, then this is for us and for our children that we should we should have understanding.

So we come back to Genesis 4:10. And I've been thinking a lot about Miller's rules for many years to take things literally unless it does violence to nature. Now, in the past, when the Bible says that thy brother's brought blood crieth unto me from the ground, I would say, well, that does violence to nature and therefore this is poetry. It is poetic. But in studying the 1888 message and looking at all of what the scripture has to say and the *Spirit of Prophecy* and the pioneers, I do not believe this anymore. I believe that this is a statement that is literal. That the blood that was shed of Abel set off a frequency reaction in the atmosphere and that it throbbed to the very heart of God. And so it cried unto Him from the ground. This is what is taking place.

So we now want to look at, and Colin mentioned this about the sparrows. Well, E.J. Waggoner had said this many years ago, the same thing. If we look at on Page 4 partway down where it says "In him we live and move, and have our being"; "for we are also His offspring." And for those of you online, if you weren't with us this morning, if you go to [maranathamedia.com](http://maranathamedia.com), and look at the article on the right hand side of the latest articles, you will see *By the Word of the Lord* and we are on Page 4 halfway down, reading a quote by E.J. Waggoner.

"In Him we live, and move, and have our being"; "for we are also His offspring." Acts xvii. 28. God is still in Christ, bearing the sins of the world,

That's amazing. It's a big statement, isn't it? This is the 1898 message.

and the cross is as real to-day as it was the day that Pilate gave judgment against Jesus of Nazareth.

The events that transpired 2000 years ago are a manifestation of what has happened today and today and today. It keeps going the same thing. And here we see:

**Not a soul suffers a pang that God does not feel; for even the fall of a sparrow to the ground sends a vibration to His heart.**

There is that word again. This is how our pioneers understood this, and these statements would suggest to me that they were far in advance of where we are today in their understanding. Haskell showed his understanding of this. Waggoner shows his understanding of this particular point. And it says here,

So it will be until the last great day, when the consummation of the mystery of the cross will be seen.

So the greatest revelation of the cross is yet to come. The source of that was 2000 years ago, but the greatest revelation of the cross will be at the end of the thousand year period. The greatest suffering that will be experienced by God and His Son will be manifested at the end of the thousand years.

The anguish of Gethsemane and Calvary will be there, and God will be affected the same as before, yea, even as He now is; for it is no light thing for Him to cut off any of His members. E.J. Waggoner Present Truth UK Oct 31, 1901

Interesting statement, isn't it? So, there are many people that have difficulty with Waggoner's view of the cross because of their understanding of their

need for a dispensational system of the gospel of the Old Testament and the New Testament and the historical understanding of the cross 2000 years ago.

But as Ellen White says in *Education* page 263, the cross is a revelation to our dull senses of the pain that God has felt from the inception of sin into the universe.

So the cross of Christ is a manifestation of what is happening to God every day, every day. We needed this revelation to our dull senses for us to understand His suffering and that in itself is amazing. So I've written here under there, there is a communication system between our Father in heaven and us through means of vibration. As it says in *Desire of Ages*, there is not a throb, not a grief, not a sorrow, that it does not vibrate to the heart of God. And so listen to this next statement in *Fundamentals of Christian Education* Page 414,

**The pure in heart see God in every providence, in every phase of true education. They vibrate to the first approach of light which radiates from the throne of God.**

That is an absolutely profound statement that should be telling us something. What is this? They vibrate. The pure in heart see God in every providence, in every phase of true education, they vibrate to the first approach of light. So you can imagine that in the Garden of Eden, when Christ came to Adam and Eve, they would vibrate to His approach.

And what was it that surround them? What was the garment that they had around them? Light, which is vibration, light waves, vibration. And it says in the *Spirit of Prophecy* that the light that surrounded them enabled them to hold converse with nature. Transmission and reception, converse. We as a species, at one time could read the frequencies of the plant kingdom, but we lost that and when did we lose that? Genesis Chapter 4. I believe this is when it happened. Genesis Chapter 4 gives you the clearest picture of this. Genesis 4:11, "And now art thou cursed" because the blood of Abel goes into the ground, so a frequency goes into the ground. And if for those again, if you studied like the water memory issue, it changes the structure of the

water, OK? And so the frequencies that were emitted when Abel died, it changed the structures of the Earth as a result of that.

*Congregation: And it was the frequency of blood that was just under attack. So it was fear and panic and everything.*

Yes, because God says when it says cries, the actual Hebrew word is shrieks. Shrieks unto me, so there's a frequency of intense agony and that frequency, that vibration is going into the Earth and the Earth is being affected by that change. It's a discordant note in the universe that is taking place.

It says, "Now art thou cursed". The word "from" can be translated "out of". "Now art thou cursed out of the Earth." So you've put this change of frequency into the Earth, it's going to come back to you. The more you put into it, the more you put this into the Earth, the harder it's going to come back at you. With what measure you mete it, it will be meted to you again. This is what we're reading here.

"Thou art cursed from the Earth, which hath opened her mouth," and that is an interesting thing. The Earth having a mouth. At this stage, I'm still thinking symbolic language. I don't have enough comprehension to understand how that could be understood, literally. So I can get the symbolism of receiving something through that type of symbolism. So that's still how I'm understanding that at the present time. "To receive thy brother's blood from thy hand. When thou tillest the ground, it shall not henceforth yield until thee her strength, a fugitive and a vagabond shalt thou be in the Earth."

*Congregation: Just thinking, Adrian, the blood, it's not just on the top. If you receive something through the mouth, it assimilates and becomes part of you. So the blood and the frequencies are essentially becoming part of the Earth, not just something sitting on top of it.*

It affected the whole Earth so that, the Earth through these different vibrations could not yield its strength to produce like it did before as a result of this.

*Congregation: Cain, knowing the nature of man, would try to hide his brother's body. He would have tried to hide his brothers by putting him in the Earth. It wasn't just on the Earth.*

So, yeah, bury the dead in the Earth so that frequency can continue.

Now, notice what Cain says. God is saying something to him. In essence, you have changed the frequencies of the Earth through what you're doing and it says the curse is going to come not from me. The curse is not coming from me. It's coming out of the earth and how does Cain spin it around. Verse 14, "Behold, **you** have driven me out this day from the face of the Earth." My ability to interface with nature has been changed, and you're the cause of it. So he's not taking responsibility for his actions. He's putting it on God. When he says, you are cursed, you put this curse. You grabbed your little black box of curses and you sprinkle it on the earth and I am now suffering as a consequence of what you're doing. That's man's response.

And it says, "and from thy face, shall I be hid." So I'm seeing in this separation of man from nature that has taken place. In our culture, very much it is a separation process from nature. This is what we are experiencing.

So let's have a look. This next quote, the one after *Fundamentals of Christian Education* page 414, this is really important for us to understand because of how we are going to preach this message and it's going to go to every nation, kindred, tongue and people and it's a light that will lighten the Earth with its glory. Light is obviously we understand this in a spiritual setting, light, spiritual light and understanding. But it also has physical implications because in *Great Controversy* 612 it says that the people of God will go from place to place with their faces lighted up. That's interesting, isn't it? Which means there's a change in the person, the countenance has changed so that there is a light that is beginning to appear in the person. Something to think about. Notice what it says here.

God delights to teach those who will learn of him. The entrance of his **word** gives **light** and understanding to the simple. To all who will

open their minds to comprehend the precious truths of his word, God will give knowledge that will make them wise unto salvation.

And I believe this is the work that we are engaged upon. It is an earnest work and we are racing as it were. And I know many are saying I'm finding it hard to keep up, but indeed the New World Order is coming. But why is it coming? Why is it now assembling? Why is it now taking place? Because the enemy knows that this message is about to be released into the Earth. That's why otherwise it would could wait another two, three, 400 years because it's not the Pope or Protestantism or the kings of the Earth who are going to bring on the second coming. No, it is a message of mercy, a message of God's love. It is a message of God's grace lived out in His people that is going to bring about the end.

And the kings of the Earth are going to be troubled because voices from the East shall trouble them and they will seek to shut it down. So we continue where it says,

**We are to strike a keynote that will vibrate to every soul,**

So a key component of the message that we are going to share is we are going to vibrate this message. Does that make sense? Is that what you're reading in there? We are to strike a keynote, a keynote like on a piano, a keynote that will vibrate to every soul. And again, is this only symbolism? Or does it speak to a reality that, as you're going from place to place with faces lighted up, that that light signifies waveform that is in harmony with heaven and that that will have an effect upon everyone around us and on the Earth itself? It says.

**vibrate to every soul, and bring joy to the heavenly intelligences. Presenting the cross of Calvary, we are to cry, "Behold the Lamb of God, which taketh away the sin of the world." When we shall cease to trust in man,**

What does it mean to cease to trust in man? It means a lot of things, doesn't it?

**and shall make God our efficiency, we shall see the earth filled with the glory of the Lord as the waters cover the sea. RH Oct 16, 1900**

And so I thought, Wow, that's amazing. We were filled with the Holy Spirit as we proclaim the Sabbath more fully. This is the point that we want to get to. We went *Great Controversy*, people of God going from place to place with faces lighted up and signs and wonders will follow the believers, follow the believers. They are not faith healers and miracle workers and all those types of things. No. Silver and gold have I none but such as I have give I thee in the name of, in the character of Jesus Christ. Take up your bed and walk. So next quote:

**Should not our souls be in that condition that every chord of the harp of our being shall vibrate with praises to God when touched by the finger of His love!**

There are the harps we are going to be playing. We are the harps and the Spirit of God vibrates the harp to make beautiful music out of the human soul. "Should not our souls be in the condition that every chord of the harp of our being shall vibrate with praises to God when touched by the finger of His love." God is agape, and that's what we've been entering upon in our investigation into the character of God, whether He is a destroyer or not, the judgment of God, the closing of probation. We've gone through these piece by piece looking at and saying, Can we still say that we are anchored upon the message of 1844 and 1888 in proclaiming what we are proclaiming? And my answer is yes. Yes, it is the Third Angel's Message in verity.

Should we not be in that nearness to God, and have that fullness of Jesus, that our souls shall be elevated, and our attention be ever directed to the grace of God, and we be led to meditate on heaven and heavenly things? {2SAT 50.1}

Set your affection on things above. We are seated in heavenly places in Christ Jesus, and if we are seated in heavenly places in Christ Jesus, then how is it that the difficulties of this life can somehow overpower the reality that we are seated in heavenly places in Christ Jesus? That's the test that all of us

must deal with when we are dealing with people around us that really desire to make our life difficult. Another one:

You have been bought with a price, by the death of the only begotten Son of God. Your heart beats on. **On that pulsation depends your life. Its beating is independent of your will. You eat and sleep in careless indifference.** But God's guardian care over you is unceasing. **He controls the ebb and flow of the vital current.**

These are amazing statements. The ebb and flow. Is there something in the oceans that we need to understand in terms of tides and ebbs and flows? We have something. I don't know if any of you had craniosacral, with spinal fluid that's going up and down in your spine and if your energy levels are dropping, that they can work from back here to get that fluid operating again so that your spine can become upright again. Amazing. The ebb and flow of vital current. Very interesting.

Where is the gratitude that should rise from human lips for His preserving care? Where is the recognition of His unceasing watchfulness? . . . {UL 50.3}

Are we thinking about this, that your very being at this moment is being upheld by the word of God. He is sending to you vital current and He is keeping you alive. We are protected by His angels, surrounded.

There are angels, maybe only, I don't know how many feet away that would kill us in an instant if the angels that were sent by our Father that protect us were not there. We would be dead in an instant. So do we appreciate these things? Do we give thanks to God? These are things that we really need to study.

**Every pulsation of the heart is a rebound from the touch of the finger of God.**

Beautiful language. The last one was *Upward Look*, page 50. This is *Review and Herald*, December 2 1890.

He watches over us by day, and under his wings we find shelter by night. His preserving care is over us, whether we wake or sleep. He is as a sentinel to guard us from Satan's power, or we should be taken captive by him. {RH, December 2, 1890 par. 15}

Not just Satan, but Satan's power. You read the statements where Satan puts a deadly taint into the air. The prince of the power of the air. If it were not for God, putting grace into the very air that we breathe. Ellen White says that the grace of God is as real as the air that we breathe, that God is preserving the air that we are breathing and if God was not doing that for us, Satan would choke us all in an instant by putting a deadly taint into the air. We would be like Herod, full of worms, writhing on the ground and dying.

So at this point, what piqued the interest in this study for me? Well, it's this next quote. This was the quote that really got my attention. The atmosphere around every man. When I read this statement I thought, Oh, this is amazing.

The influence of every man's thoughts

That was the part that got me. Not just the actions.

and actions surrounds him like an invisible atmosphere, which is unconsciously breathed in by all who come in contact with him. This atmosphere is frequently charged

And that word, I believe, is significant because it speaks to electrical current. It is charged

with poisonous influences, and when these are inhaled,

by others, I understand this to mean

moral degeneracy is the sure result. {5T 111.1}

*Congregation: The Hollywood idea and all that sort of stuff that they're putting their energy into their movies and then broadcasting it across the planet.*

So every time that you watch the nightly news, you are exposing yourself to a frequency and if you continue to respond to that frequency, it has an effect. Your view of the world is actually being shaped for you as to what reality is and then you're thinking about those things in the way that the world is operating is being controlled. The news media is a very, very carefully crafted social engineering tool in the way that we should think about life. And so your thoughts emit frequency.

Because through the study of Manfred Clynes on Sentic, emotion has waveform. So the emotions that you have produce waveforms, and that's why when you come into a room where there's a lot of tension, you feel it because the waveform is something that you can read. And Manfred Clynes did tests with these different waveforms across many, many different cultures with these waveforms. And it didn't matter what culture, what language you were talking with, everyone would universally pick up the difference in the waveforms and what it meant in terms of anger, hatred, reverence, joy, peace. They all have waveforms.

And when your thoughts are filled with sorrow and bitterness and frustration and irritation, you are emitting frequencies to that effect and it's affecting everybody around you without you even saying a word.

*Congregation: God says His thoughts are not our thoughts and have a far deeper meaning than we first imagined.*

Yeah. His thoughts are not our thoughts. Colin and Craig and I were talking about this before. This is why it is impossible for God to conceive the idea of death, because if God thinks about death, it immediately emits a frequency that would destroy everything. So God cannot have anything to do with death. He can't. He can only emit frequencies of light and life and peace and joy and forgiveness. Does that make sense? To believe that God originated a justice system that demands death guarantees the death of all living things because death is a frequency that is now coming from the very being of God himself at the thought level. And this is why it says, I believe in 1 Corinthians 13, then we shall know even as we are known. Complete transparency.

When we were able to read those frequencies, you can't and I'm finding in terms of the mirror principles, and I'm learning far more about people around me that I was ever picking up before. People are just giving away lots of information about themselves and the question is how comfortable are we with that? But this takes sanctification to a whole new level, doesn't it? Bringing into captivity every thought to the obedience of Christ that you're no longer emitting waveforms. Think about how much damage your waveforms coming out of your brain has done to this creation. Maybe think about something more positive so we don't put out anymore? Animals are very good at reading human beings. How do they read them? It was very, very interesting.

And so this thing about every man's thoughts and actions surround him like an invisible atmosphere which is unconsciously breathed in by all we come in contact with. And this proves the truth of Romans 14:7 which I've got listed just underneath, "For none of us liveth to himself and no man dieth to himself." The thoughts of death that exist in every man affect every other man. This is the reality.

And so I've just taken a quote from the booklet *Dominion of the Earth* that I wrote, and this is on page 5 of the book.

Are these elements in the creation and man simply separate events happening at the same time or is there a relationship between the strife of men and the convulsions of nature?

That was the question I was posing in this book.

Is it possible that when we are at peace within ourselves and in our communities that the earth itself is influenced in some way? Conversely if we are conflicted and turbulent within ourselves and our relationships, could the earth also be affected by this? *The Dominion of the Earth Page 5*

And those who operate within New-Age and eastern mysticism, of course their answer is immediately yes, of course. This is absolutely true, but it is

housed in a context that leads you into death. And this is the thing that Satan is constantly working on, on taking a truth and attaching it to an error that ultimately still leads you to death, such as the Green Movement.

The Green Movement wants to preserve nature and creation, but it is pushing an agenda in terms of marriage that will guarantee the destruction of every green thing. That's how Satan works. That's how he does things. And so we've spent a fair number of presentations looking at texts like Isaiah 24:4-6, where it says that the Earth is languishing because they've broken the everlasting covenant and all of these things. That the Earth is defiled under the inhabitants thereof. And Leviticus 18:25 that the Earth vomits out its inhabitants because of its sexual perversion and sexual appetites that are out of control. And Genesis 6:11-12, where talking about the flood that the Earth was corrupt. It was destroyed under the inhabitants or under the people of the Earth. So we've clearly established that connection.

The point that we're making here is that this is occurring through energy, vibration and frequency. This is how these things are taking place and how that they are affecting the Earth. And so come over to the next page. *Patriarchs and Prophets* Page 59

Under the curse of sin all nature was to witness to man of the character and results of rebellion against God. **When God made man He made him rule over the earth and all living creatures. So long as Adam remained loyal to Heaven, all nature was in subjection to him.**

So the loyalty of Adam to God means that Adam is emitting a frequency of loyalty, and that frequency affects all of the creation that is under his dominion. So that loyalty goes into the creation. But when he rebelled, he began to emit a frequency and vibration of disloyalty and rebellion. And so what does it say?

**But when he rebelled against the divine law, the inferior creatures were in rebellion against his rule.**

The question is, well, how? How does this happen? He's in rebellion, they are in rebellion. How? Through vibration and frequency and thought processes. And this is how and it affects the Earth so that the Earth responds.

**Thus the Lord, in His great mercy, would show men the sacredness of His law, and lead them, by their own experience, to see the danger of setting it aside, even in the slightest degree. PP 59, 60**

Now our nation is rapidly setting aside the injunctions of the Torah in its legislative halls. It is setting aside what the Bible is teaching us, and we are therefore now on a steady march to oblivion as a result of this. If we were to stand up and to say that the Torah actually tells us that marriage is between a man and a woman, and that these other forms of unions are producing frequencies that will destroy the Earth. Do you think that that would be appreciated?

The Torah also speaks about adultery, fornication, not just homosexuality. Any form of these things. It doesn't matter. They're all producing the same frequency, just a differing rates. But it's the same issue. So if we say, well, when you do these things, you are emitting frequencies into the atmosphere that ultimately will guarantee the destruction of our civilization. Now it might take 500 years or longer, but it will happen. It will happen. And if I'm studying history correctly, it's probably around a 500 year cycle.

So we've read the part about Cain, the voice, when Cain sinned, the voice of thy brother's blood. I've repeated the statement there from *Desire of Ages* is not a sigh is breathed, not a pain is felt, not a grief pierces the soul, but the throb vibrates to the Father's heart. So every emotion, every thought process that you have sends a vibration to the Father's heart.

So just think about this for a minute in terms of these vibrations. Obviously the vibration, the thought processes we have and the vibrations that occur allow for a mechanism for everything that we have done to be written upon the tables of our heart. But it's also emitting a frequency to guarantee that everything that we have done places a frequency in heaven as well. The things that you have bound on Earth will be bound in heaven. The books of

record, but it's all coming from here (the heart) or coming from here (the mind). So it's written here (the mind), but it also sends a frequency so that it vibrates to the heart of God. That's why He knows. He has a complete record.

*Congregation: It's interesting on the tables of the heart. People who have heart transplants have strange things happen within themselves from the other person they received it. Sometimes skills or some people write poetry when they haven't been able to write poetry before. They eat things a certain way or their hair changes colour, it's like . . .*

Yeah, exactly. It's so Interesting, isn't it? So the heart has been exposed to frequencies or vibration within a person's body, and then somehow that is then transferred into another person's body, they then obviously that person has an effect on it as well. So what comes out is something hybrid. The heart having some storing capacity. And in terms of the whole concept of the electrical currents in muscles and muscles as battery packs, and it's a whole interesting area of understanding.

So I've got written down here under Genesis 4:12 because we've already looked at that in quite deep and much detail.

Cain negatively charged the atmosphere with hate, murder and then fear, guilt and anguish. These emotions vibrate into the Earth and reduce its capacity to yield its force or strength.

Does that make sense? Yeah, so I've got here about water memory experiments, music experiments, the effect of vibration on living things. Like if you put plants up against a speaker system when you play rock music, it's vibration because sound is vibration and you can wither the plants or if you play structured music like Bach or Beethoven, the plants respond more positively to that type of vibration. So this proves that plants are amenable to vibration. That in itself will tell you. If you microwave water and then pour that on a plant, what would that do? Have a look.

*Congregation: There's a product called Sonic Bloom or something I looked at once where it puts out a frequency that makes your plants grow. Walter Veith mentioned that.*

And you're familiar with products you put in to send pests away. It emits a frequency. So we're familiar with those things.

So I've got here now the study about Manfred Clynes, Austrian neuroscientist studied the waveforms of touch, emotion and music. A musician can create music forms to simulate different human emotions such as love, peace, reverence, hate, anger, sensuality. Thus, when we open ourselves up to certain forms of music, we can be vibrated through music to begin to experience emotions that are stimulated in the music form.

And when Manfred Clynes did his research and they were doing music therapy with people and they were playing certain forms of music that they thought would be helpful to people, in 80 percent of the cases, they saw an improvement when they were being played structured music that was good for the body, but in some cases it didn't appear that way. This is from the research that I looked at some years ago, so it's a bit hazy. But so some in some cases it didn't appear that way. And so they looked into the lives of the actual musicians who were playing these things and found that they themselves had personal issues and difficulties and so that is coming through the music as well.

So I just ask you to think about this for a moment knowing what we know about when David played before Saul and David is playing, what happened when David played? What happened to the spirits that were harassing Saul? So the music, David in tune, aided by the Holy Spirit, causes emission of frequencies, which was not what the spirits desired and they had to leave. So that's why often when there is spiritual harassment, you sing hymns of praise, reverence praise, these types of waveforms are obviously very annoying to the enemy.

So obviously, conversely, he puts all his waveforms and stuff into his music and everything like that. And just think about this and I think about this very carefully because the influence is subtle. But if you go on to YouTube and

you listen to hymn music being sung by people that worship a three in one God, is there a frequency in that music that affects you or not? Yeah. Sorry, I just decimated your music library. It's something that I think about a lot. What frequencies am I exposing myself? The fact that we have capacity to record music, what if the people who are playing this music are desperately depressed and sorrowful and all of that is in the music. It's all in the singer's voice in what they're saying. And you say, well, I can't listen to any music. Well, I'm just saying it has an effect. If you have a strong relationship with God and you're a vibrant, loving relationship, those things are going to have minimal effect on you.

But if you're having difficulty and you're struggling and that's just another little piece, just another little added weight to go onto your shoulders to cause confusion and disappointment and all those kinds of things. And so I want to minimize the effect of these things. This was one thing for sure, and this has been a tremendous blessing and this is where Daniel's been a great blessing to us, his discernment with frequency and music is phenomenal. He can pick things up that we weren't picking up and we started to learn some things. And this is why it was difficult in our home, for his older brother when he would be secretly playing computer games and we knew nothing about it, he'd pick it up. Didn't even have to be in the room, but he'd pick it up. It was amazing to me. So I'm very, very thankful.

So this discussion takes the question of our community and how we interact with one another and our responsibility to one another to a whole new level. It doesn't matter what you do in the deepest recesses of your mind, and that it will be shouted from the house tops. Didn't Jesus say that? So God is going to give his people a greater capacity to discern and understand these things and to read these things. And as we read about before, and I want to reiterate this point, that was of utmost interest to me back on Page 3 about he moves upon human forces, causing his spirit to touch invisible cords and the vibration rings to the extremity of the universe.

Now, the prince of the power of evil can only be held in check by the power of God in the third person of the Godhead, the Holy Spirit. And it is my understanding that this desperate effort to present to God's people that the Holy Spirit is a separate third being will destroy your capacity to truly

understand what Satan is seeking to do to God's people on the last days. Does that make sense? Because you cannot see what we are saying here by this concept that we're putting out here because it's just another person? OK? So I think that's part of the confusion mechanism that the enemy wants to work on us. So this Holy Spirit, back to Page 6 down the bottom.

It is through the Holy Spirit that we receive vibration that places us in harmony with our Father,

And again, we stress the point the Holy Spirit is not vibration. The Holy Spirit is an agency of God that brings vibration. This is the distinction is critical that we make the distinction.

It is through the Holy Spirit that we receive vibration that places us in harmony with our Father, His Son and the Angels. The mighty energies can fall upon us like an electric shock and bring us to life. We would not say the Holy Spirit is vibration but it causes it.

I'm just there again, and I've quoted that part.

He moves upon human forces, **causing his Spirit to touch invisible chords**, and the vibration rings to the extremity of the universe. {SpTA10 36.3}

Only as we receive the Holy Spirit can we vibrate in harmony with heaven and then become a point from which blessing or atmosphere is passed to others.

And I believe this is what it means in John 7:38-39. He that believeth on me, as the scripture hath said, **out of his heart or belly shall flow** what? **Rivers of living water**. How does rivers of living water flow out of our being? Because the Holy Spirit touches invisible chords in the harp of your soul, and that causes a vibration to go out of you that is in harmony with heaven. And that is causing living water to touch everybody around you. **But this he spoke of the Spirit** which they that believe on him should receive for the Holy Spirit was not yet given. And Ellen White, in commenting on this verse, says not yet **fully** given (no dispensationalism please) because that Jesus was not yet

glorified. That's important. So how to receive the Holy Spirit? I've written some things here.

- Repentance: Repent and be baptized every one of you in the name of the Lord Jesus Christ and you shall receive the gift of the Holy Spirit.
- Ask: Luke 11 13. Ask and you shall receive the Holy Spirit. We must ask for it. Ask. It's that simple. I pray every day and ask, please give me your Holy Spirit that I might be in harmony with you so that my soul will vibrate to the first light that comes from the throne of God. Very important.
- Obedience: The Holy Spirit is given to those that obey him. Acts 5:32. Obedience brings more of the Holy Spirit, which brings to us and the Spirit then causes vibration to occur that places us in harmony with heaven and Earth.
- Times of Refreshing: Act 3: 19-20 and I'd like to read these verses.

Repent ye therefore, and be converted, that your sins may be blotted out, when the times of refreshing

The Hebrew equivalent to this is Moedim. In the Moedim of Refreshing

shall come from the presence of the Lord; and he shall send Jesus Christ [which is the spirit of Jesus Christ,] which before was preached unto you.

So at the times of the Moedim and we've all been studying about this, today there is a double portion of the Holy Spirit that is available to those who believe this. To those who have accepted this and believe this, you have the possibility of entering more deeply into and tuning into the frequency that is available during this 24 hour period and learning to vibrate to the approach of light.

This is the quotes we remember reading before, the vibrating to the approach of light from the throne of God. And this is where this next quote became very, very meaningful to me, *2 Testimonies* 704:

All heaven was represented to me as beholding and watching upon the Sabbath those who acknowledge the claims of the fourth commandment and are observing the Sabbath. Angels were marking their interest in, and high regard for, this divine institution.

So if you have a high regard for this divine institution, then you will automatically safeguard the edges of the Sabbath. You will have a spirit of anticipation for this because you know that the Holy Spirit is coming to you in greater measure. The Father and His Son will come and abide with us. Their presence will be felt more distinctly by those who believe it. If you do not believe this, then this this frequency will not be picked up by you. You're not tuned in to it so it's falling all around you but you're not experiencing it. Okay?

Those who sanctified the Lord God in their hearts by a strictly devotional frame of mind, and who sought to improve the sacred hours in keeping the Sabbath to the best of their ability, and to honour God by calling the Sabbath a delight--**these the angels were specially blessing with light and health, and special strength was given them.**

And I have tested this and tested it and proved it to my own satisfaction that light, health and strength. And why? Because these angels are completely in harmony with our heavenly Father and His Son. And so they vibrate to God's frequency are in complete harmony with him. And when we welcome them into our assembly, they bring that frequency to us and we are then benefited by this. And I'm not saying it's only those things, but those things are included. Does that does that make sense?

Light, health and special strength was given them. But, on the other hand, the angels were turning from those who failed to appreciate the sacredness of God's sanctified day, and were removing from them their light and their strength.

How are they removing from them, their light and their strength? By removing from them their presence because their presence is not desired, is not sought after or welcomed because they're busy doing other things.

I saw them overshadowed with a cloud, desponding, and frequently sad. **They felt a lack of the Spirit of God.** {2T 704.3}

They felt the lack, you see. And so our keeping of the seventh day Sabbath and what I mean by keeping, our receiving of the Father's love through His Son at this time. Our believing that our Father loves us, our focusing, our hearts opening up in gratitude places us in harmony with heaven so that we can begin to vibrate the light that comes from the throne of God. Does that make sense?

So this is why the Sabbath is the seal of God to bring our minds into harmony with heaven itself. Now, I know that some people will become anxious about some of the language, but put in its proper context, this makes perfect sense. You have to explain these passages as to how these things are taking place. And of course, Satan wants to take language and attach it to error and to cause people to then go in an opposite direction so they have nothing to do with it, to keep them away from the truth. And so Sabbath keeping is placing yourself in a place to be in harmony that your heart can be played with the invisible chords by the Holy Spirit to bring you into harmony with heaven so that your thoughts will be peace, love, joy, temperance, meekness and these then will vibrate and out of you like living water to those around you.

So I have got there about living bread from heaven and about the importance of the festivals, the Sabbath and why this is so important. The people who are not gathering at this particular time are not able to take advantage of the double portion. It's much easier to tune in to the channel today than the other six days of the week. Then when the new Moon comes there is another opportunity to tune to this frequency or these frequencies, you see. And the more we turn to these frequencies, the more we will be protected from the frequencies that are gathering all around us at the present time coming out of these devices and these machines in the 4G and the 5G and all the other types of frequencies.

And let me say this to you in terms of knowing that every person has an atmosphere and is generating thought processes, we are here on the edge of a very large city with a lot of people in it, with a lot of people with a lot of negative thought processes going on. Is that affecting us? The time will come when we must move away from these influences. Let's move further out so there are less of these thoughts from the atmosphere. The atmosphere that hangs over this city is full of depression, sorrow, anxiety, hatred, murder. These are the frequencies that emanate out of the centre of this city. It's toxic. Fear, anxiety, all of these things, that in itself is another whole subject, all of its own.

But the Sabbath becomes such a critical component for us to be able to withstand these frequencies so the Holy Spirit, we can withstand the prince of the power of the air. And so I think we've just about covered all the pieces. Just repeating that statement on the back.

We are to strike a keynote that will vibrate to every soul, and bring joy to the heavenly intelligences. Presenting the cross of Calvary, we are to cry, "Behold the Lamb of God, which taketh away the sin of the world."

Hopefully we've connected a few dots. Hopefully that stimulates a lot of thought. We've gone straight up another cliff. Hopefully, with this document, we've put footholds in for you and provided ropes so that you can commence this climb. But I hope that this will cause you to anticipate seven days from now and that you will anticipate Passover when it comes because we have a greater opportunity to come into harmony with these things. So thank you for your time. Shall we kneel and we will close with prayer.

Our Father in Heaven, I thank you for the opportunity to study these things. What a joy it is to open the scriptures and the *Spirit of Prophecy* and the pioneers, and again and again and again comes the confirmation. This is the way, walk ye in it when ye turn to the left hand and to the right. We want to thank you, Father, for your angels that excel in strength. We welcome their presence. We pray that for the remaining hours of this Sabbath that we would gather up the fragments that we would enjoy and appreciate the light and Father that you would help us this week, that when thoughts of fear and

anxiety and distress seek to take over us, that we will run to you and be reminded of your love and your grace towards us so that we will not emit frequencies of fear, anxiety, hate and anger that will affect everybody else in our community. I pray that you would teach us to bring every thought into captivity to Christ that we may no longer bring harm on the Earth through what we think. And I thank you in Jesus' name. Amen.
